Take Your Coffee Experience to the Next Level With Cafection’s New 29” Bean to Cup Solution!

*Images may vary from actual products.
At Cafection, we strive to deliver nothing less than a perfect cup of coffee, anywhere, at anytime. That is why every day, we work to build the greatest coffee experience, starting with fresh coffee perfectly ground using the highest quality burr grinder and brewed through a French press design. Our machines’ customizable beverage options help you create the best taste possible!

- Adjustable gram throw guaranteeing a constant taste profile.
- On-screen beverage settings to let the customer order his perfect drink.
- Choice of close to a hundred of sizes and strengths recipe combinations.

...and much more!
Low-Carbon Lifestyle

Be One of Those Making a Greener Planet with Cafection

Only Compostable Wastes
- No plastic cups in the landfill.
- 100% compostable organic coffee waste.
- Biodegradable filter paper.

Reducing Greenhouse Gas Emission
- Maintenance notifications to reduce service visits and be PROACTIVE.
- Save time and money while making a difference at a larger scale by reducing your environmental footprint.

Other Sustainable Advantages Offered by Cafection

Energy Saving Mode:
- Brewers are asleep around 74% of their lifetime, mostly on weekends, holidays and night time.*
- Set sleeping periods to reduce energy use.
- Machines can be woken up at anytime. Water is kept at the ideal temperature to minimize heating time and to guarantee safety.
- Increase significantly the lifetime of all components in contact with water.

*Based on 8 am to 5 pm work days.

Other possibilities available. Contact Cafection to learn more.
Customization

Screen Saver Interface

Add Your Logo*
Customize the screen saver with your logo or tagline to show your brand image to your customers.

Add a short message or your company description below using Sophia - Global Management System.

Default screen saver videos show each beverage available in the brewer, one at a time. The recipe's name, along with a short description of the beverage, is displayed at the bottom of the screen.

Accent color matches the selected software theme (blue by default).

* Available on Sophia - Global Management System. License required.
Video Branding

Brewing Time Video Branding
Take advantage of the 1-minute brewing time to display videos to your customers. Promote your company services and products or send internal communications.

Screen Saver Video Branding
Draw the customer’s attention by displaying your own personalised videos in Screen Saver mode.

These 30 second videos will stimulate your customer’s interest in your different products and services and will lead them directly to the coffee machine.

Videos can be pushed remotely using Sophia - Global Management System (Optimum license required).
